Dear Tim and Bob:

Congratulations on your Phoenix studio expansion and achievements in video transmission! I am so proud of the great work you have accomplished, from providing video content of MLB games, to participating at the Academy Awards. BitFire's contribution to the City of Phoenix is a wonderful one and we appreciate the innovative new ways you are serving our community.

I would also like to commend BitFire for its dedication to technological advancement even during a global pandemic. During COVID-19, BitFire rose to the challenge and provided safe, socially distanced technology that allowed our world to feel more connected. Your impact is invaluable and truly appreciated.

Sincerely,

Kate Gallego
Mayor of Phoenix
